VEHICLES OTHER THAN RAILWAY OR TRAMWAY ROLLING-STOCK, AND PARTS AND ACCESSORIES THEREOF

Additional U.S. Note

1. Original motor-vehicle equipment. For purposes of this schedule:
   (i) The term "original motor-vehicle equipment" means an article which has been obtained from a supplier in Canada under or pursuant to a written order, contract or letter of intent of a bona fide motor vehicle manufacturer in the United States, and which is

a fabricated component originating in Canada, as defined in Chapter 3 of this Agreement, and intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(ii) The term "motor vehicle", as used in this note, means a motor vehicle of a kind described in headings 8702, 8703 and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or goods.

(iii) The term "bona fide motor-vehicle manufacturer" means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of names and addresses of bona fide motor-vehicle manufacturers.

(iv) If any article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service--

(A) the article is, under customs supervision, destroyed or exported, or

(B) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the article had not been entered as original motor-vehicle equipment.
